ly entitled to the use for republication

THE KENTUCKIAN FOR SALE  
It is my purpose to retire from ac-  
tive participation in the newspaper  
business in the near future, to de-  
vote my attention to other affairs. To  
that end, the Daily Kentuckian is  
herely offered for sale. Its business  
is on a successful basis and shows a  
large increase from month to month.  
The decision announced has been  
hastened by the increasing difficulties  
of securing competent and skilled  
labor to publish the paper, due to  
the fact that every man of military  
age on the force has been called to  
the service. The plant will be sold  
with or without the building it has  
long occupied. From the right party  
a proposition to lease might be en-  
tertained. Existing contracts will be  
carred for in the transfer.

ELOPE, THEN DIE TOGETHER  
Chief of Police and Neighbor's Wife  
Carry Out Suicide Pact.

Rochester, N. Y.—Elihu Fish, chief  
of police of Macedon, and Mrs. Elmer  
Phelps, who were found shot to death  
in the woods near Spencerport on  
Thursday, left their homes on July 8.  
Fish, his wife and their two small  
children lived opposite to Mr. and Mrs.  
Phelps in Macedon. Fish represented the  
Standard Oil and Phelps to a large  
cannal operator. Mrs. Phelps was a fre-  
quent visitor to the Fish home, al-  
though Mrs. Fish protested against her  
visits.  
Mrs. Phelps was driving Fish's au-  
tomobile on July 7 and crashed into  
another machine. Fish took the car to  
Spencerport and wanted to have it re-  
paired immediately. As this could not be  
done, he and Mrs. Fish returned to  
Macedon. He and Mrs. Phelps left  
thereon Thursday at four o'clock and  
nothing was heard from them until  
the finding of their bodies.  
Mrs. Fish and her children have gone  
to the home of her father in Clifton  
Springs.

HERE'S GREAT CHANCE  
FOR WAR PROFITEERS  
Manchester, Conn.—James  
Wick has a hen which lays  
trunk eggs once a week. They  
are usually of large size. The  
latest one, a double egg, meas-  
ured 3 1/2 inches in circumfer-  
ence and 7 1/2 inches around the  
center. In the center of the  
larger egg was a smaller one,  
the shell of which was harder  
than the egg outside.

### CONSTIPATION

And Sour Stomach Caused This  
Lady Much Suffering, Black-  
Draught Relieved.

Meadersville, Ky.—Mrs. Pearl Pat-  
rick, of this place, writes: "I was  
very constipated. I had sour stomach  
and was so uncomfortable, I went to  
the doctor. He gave me some pills.  
They weakened me and seemed to  
tear up my digestion. They would  
gripe me and afterwards it seemed  
I was more constipated than before.  
I heard of Black-Draught and de-  
cided to try it. I found it just what I  
needed. It was an easy laxative, and  
not had to swallow. My digestion soon  
improved. I got well of the sour stom-  
ach, my bowels soon seemed normal,  
no more griping, and I would take a  
dose now and then, and was in good  
shape.

I cannot say too much for Black-  
Draught for it is the finest laxative  
one can use."  
Black-Draught has for  
many years been found of great value  
in the treatment of stomach, liver and  
bowel troubles. Easy to take, gentle  
and reliable in its action, leaving no  
bad after-effects, it has won the praise  
of thousands of people who have used  
it.

### CAN'T KEEP A GOOD SHIP DOWN

Half of Torpedoed Craft of Great  
Britain Have Been  
Salvaged.

### METHODS GREATLY IMPROVED

Much Greater Weights Than Believed  
Possible Are Now Being Lifted—  
No Hope of Ever Raising  
Lusitania.

London.—Of 400 British ships sunk  
in the last two and a half years at  
least 50 per cent have been raised  
from the bottom of the sea. The  
organization responsible—the Admiralty  
Salvage department—is composed ex-  
clusively of experts employed by a com-  
mercial firm which engaged in the busi-  
ness before the war. Ships were so  
cheap then, however, that often it did  
not pay to raise a sunken wreck and  
restore her to seagoing condition.  
Things are very different now, and  
the result is that invention has been  
stimulated to an extraordinary extent.  
It used to be considered that 1,500  
tons was the greatest weight that  
could be lifted from under water by  
wire ropes. A sunken government col-  
lier that was obstructing a fairway  
was lifted out of the mud recently and  
carried away by four lifting ships, with  
sixteen derrick wire ropes, and the  
deadweight carried was calculated at  
2,750 tons. The wreck was shifted  
one mile at the first lift, and so was  
gradually taken to the beach, patched  
up and sent off to the repairing yard.  
She went back into service and made  
several voyages before a torpedo ended  
her career altogether.

Ships sunk in deep water cannot be  
salvaged. It is not expected that the  
Lusitania, for example, will ever be  
lifted. Divers cannot work in more  
than 25 fathoms successfully, though  
for special purposes they may some-  
times go down to 35 fathoms for a

brief spell of work.  
The bulk of the ships saved have  
been sunk in less than 20 fathoms, or  
have been towed inshore by rescue  
tugs, and have gone aground in fairly  
easy positions.

The salvage men face considerable  
risks, not only from bad weather but  
also from submarine attack. Only one  
salvage ship, however, has been lost  
through enemy action.

One of the largest oil tank steam-  
ships was mined and caught fire.  
There was a heavy explosion and the  
decks were flooded with burning oil.  
The cargo consisted largely of benzine.  
Most persons would conclude that the  
case was hopeless. Not so. The ves-  
sel was scuttled by gun fire and thus  
the fire was extinguished. Then divers  
plugged all the shot holes, besides clos-  
ing other apertures. On being pump-  
ed out the vessel floated and was  
forthwith taken to a repairing port.

New Pump is Valuable.  
As showing how valuable is the new  
submersible electric motor pump, a  
recently torpedoed ship which carried  
a cargo (mainly foodstuffs) of more  
than \$15,000,000 value had a hole 40  
feet long by 28 feet deep in her side.  
She was taken in tow by rescue tugs,  
but went down before time had served  
to beach her suitably. No ordinary  
pumping power would have served the  
need, but the new type pump enabled  
stokehold, engine room and all her af-  
ter holds to be pumped out, so that  
cargo could be discharged and the ves-  
sel taken higher up the beach. Then  
the lightening process was continued  
until the vessel was floated and taken  
into dock, practically all her cargo be-  
ing saved.

There is more Catarth in this section  
of the country than all other diseases  
put together, and for years it was sup-  
posed to be incurable. Doctors prescribed  
local remedies, and by constantly failing  
to cure with local treatment, pronounced  
it incurable. Catarth is a local disease,  
greatly influenced by constitutional con-  
ditions and therefore requires constitu-  
tional treatment. Hall's Catarth Medi-  
cine, manufactured by F. J. Cheney &  
Co., Toledo, Ohio, is a constitutional  
remedy, is taken internally and acts  
thru the blood on the mucous surfaces  
of the system. One Hundred Dollars re-  
ward is offered for any case that Hall's  
Catarth Medicine fails to cure. Send for  
circulars and testimonials.

### PLAIN NATURAL IRON BEST TONIC

Costs but a Fraction What Weaker  
Preparations Sell for—A Spoonful  
in a Glass of Water a Dose.

The absolute proof that medicinal  
iron would help blood and strengthen  
people wonderfully has caused many  
chemists to perfect more or less ef-  
ficient iron tonics and more or less  
efficient tablets.

For most people, however, the writ-  
er would say that just plain highly  
concentrated Acid Iron Mineral is  
better, far cheaper and stronger and  
gives twice as much iron as far.

A bottle of Acid Iron Mineral  
kept handy and a teaspoonful poured  
in a glass of drinking water after  
meals, makes a delightful, very un-  
usual and highly beneficial tonic and  
strengthening, and if the blood needs  
enriching and purifying it would be  
hard to find anything that does it  
better or ride the system of rheuma-  
tism and kindred ailments quicker  
than just plain concentrated Acid  
Iron Mineral, which is the name for  
non-alcoholic natural iron.

It also has a beneficial effect upon  
appetite and digestion, and the kid-  
neys soon show its effects.  
(Note:—) A-I-M does not act as a  
laxative and should one be needed to  
stimulate the liver or bowels a good  
laxative tablet like A-I-M Pills is re-  
commended.—Advertisement.
